Industrial Rehab Course Series

KEY Functional Capacity Assessments 3 Days CEU = 2.4 (24 contact hours)
\$2,000 per Trainee, \$1,500 for 2nd

This course emphasizes the background, technology and methodology for administering functional capacity assessments for the injured and uninjured population. Participants gain in-depth knowledge, skills and certification in the KEY Method of Functional Capacity Assessment. The course covers information on marketing, operational procedures, outcome data and case studies that provide individual knowledge about starting and adding services in functional capacity assessments.
